To Whom it may concern

Maintenance Cleaning Services provide industrial and domestic cleaning and high pressure jetting services to Rockwood Additives Limited, we have found the company to be very competitive and cost effective within the industry.

Maintenance Cleaning Services employ only tradesman of the highest standard, who have all satisfied our quality assurance and site induction procedures. These tradesmen provide an effective and efficient service, and they also have many years experience (approx twenty years) in the cleaning service industry providing special problems solving services and utilise best practices at all times.

I would be glad to recommend this company and it's services to you.

If you require any further information regarding the above reference please do not hesitate to contact me

Regards
